Personal Statement

As a 4th-semester Computer Science student, I possess the technical understanding needed to quickly grasp complex IT contexts and system architectures. My goal is to apply my knowledge of software development and system integration in a hands-on way to efficiently optimize digital processes and interfaces.

Education

Technical University of Darmstadt: B.Sc. Computer Science (4th semester) Oct 2024 – present

- GPA: 1.66 (German scale)
- **Outstanding academic achievements:**
 - FOP (Java, OOP, Design Patterns): **Grade 1.0**
 - EiKI (AI, Machine Learning): **Grade 1.0**
 - AuD (Algorithms, Complexity): **Grade 2.0**
 - SE (Architecture, Test Planning): **Grade 2.0**
- **Teaching (Summer Semester 2026):** Tutor for **Algorithms and Data Structures (AuD)** and **Computer Organization (RO)** at TU Darmstadt.
- **Projects:**
 - **VC AI Copilot:** Self-hosted VC deal intelligence platform with knowledge graph (Neo4j + PostgreSQL/pgvector), local LLM (Ollama) and RAG agent; FastAPI & Next.js.
 - **BrückenPilot:** AI pipeline (Python, OCR, LLM, Pydantic) for automatic extraction of bridge inspection data from PDFs with an interactive React map.
 - **Viegtor (Viega x FUTURY Hackathon):** AI decision-support system for Viega (RAG, Vertex AI, Firestore); 1st place at the FUTURY Building Days Hackathon (100+ participants).
 - **Spherecast Challenge (Agnes):** RAG-based supply chain optimization; 2nd place at the TUM.ai Makeathon 2026 (500+ participants).
 - **FalkorDB-Haystack:** Open-source contribution: native graph database adapter for the Haystack RAG framework.
- **GitHub Portfolio:** github.com/ghassenzaara

Pioneer High School of Ariana, Tunis, Scientific Baccalaureate Sept 2019 – June 2023

- Grade: 18.87/20
- 27th national rank in Tunisia (top 0.1% of 25,987 candidates)

Technical & Software Skills

Core Competencies:

- AI Engineering, Full Stack Development, Cybersecurity

Software Engineering:

- Backend/Frontend, OOP, UML, Design Patterns

Cybersecurity:

- IT Security, Data Encryption

Artificial Intelligence:

- RAG, Multi-Agent Systems

Frameworks & Libraries:

- React, Node.js, FastAPI, Spring Boot, SQLite, Pydantic

Programming Languages & DBs:

- Python, Java, JavaScript, SQL, FalkorDB

Soft Skills

- Teamwork, Analytical Thinking, Technical Documentation, Problem-Solving Skills, Openness to Feedback

Languages

- German (Fluent)
- French (Native)
- English (Fluent)
- Arabic (Native)
